Our **commitment** to your school is shown by the commitment of our team. Our core team has been working together on this project since its inception. And because we are both the product services and the development house, we can create adaptations, enhancements and customizations as your needs evolve.

With Schools-On-I-Net, you gain more than an online school management system, you gain a technology **partner**. We help you develop an implementation plan to reach your technology goals, we work with you and provide the highest standard of customer support. We also provide additional services like Google Apps for Education integration, e-commerce forms and more.

Your **success** is the greatest measure of our success. We are proud to say that our schools have 100% teacher participation for logging into our system and for using modules like Report Cards and Lesson Plans.

Schools-On-I-Net is a sophisticated solution for yeshiva education. We support dual curriculum academics, Hebrew text in all modules including demographics, assignments and report cards. Our team has worked closely with Jewish day school educators for the last 8 years.

Saving money and now earning money with Schools-On-I-Net is easy. Schools-On-I-Net helps your school save money by increasing efficiency and collaboration. We also provide ways for your school to earn cash rewards:
